The Attempt on Bismarck's Life Retaliated by the Government,

New York, August 10.—A letter from terlin on the attempted assassination of ismarck by Kaufman, contains the following: The first step which the Gov-ernment takes is to attack the Catholic ernment takes is to attack the Catholic party. The private dwelling of Christopher Joseph Cremer, acting editor of the Berlin Germania, was searched by the police, who confiscated letters, manuscripts, and some pamphlets. The next visit of the police, seven in number, was to the house of Legation Counselior Von Kehler, Secretary of the Mayence Catholic Union, and their booty was considerable, comprising about eighty documents, letters, circulars, names of members of the society. On the same evening Herr Von Kehler's work room was searched, and the following morning the place of meeting of the Berlin Catholic Gessellenvrein Union of Journeymen was scarched, and the house of the Vicar's spiritual counsellor, Muller, the father of Catholic counsellor, Muller, the father of Catholic societies in Berlin were searched, and societies in Berlin were searched, and these police inquisitions have been follow-ed by temporarily closing the Catholic societies of Berlin. One authority states that the number of members of the Catholic Gesellen Unions in Germany to be 80,000. Besides these there are hun-draded of these societies such as the Cathhe convol. Besides takes there are nundreds of other societies, such as the Catholic Adult Societies, Catholic Young Men's Societies. University Societies and societies of women and children. The connection of Father Hanthaler with the attempted assessination is given as follows: He had a desire to see Bismarck: he was in Schweinfurth and nych having he was in Schweinfurth and not having much money was yet bent on seeing the Chancellor. Before returning home he paid a flying visit to Kissengen. He arrived there early in the moraing, and since Bismarck does not drive out until 1 o'clock he had some hours to spare, which he spent in walking up and down the pavement in front of the Prince's house. In his perambulations he got into a conversation with Kullmauer, who too said he was desirous of seeing the Prince, and they talked together at intervals. At last, at one o'clock, the crowd grew larger and Bismarck's carriage was expected every moment. Kullmauer stood on the pavement opposite to Bismarck's house. Grasshoppers in Kansas.

From the Lawrence (Kan.) Journal.

As nearly as we can gather from private letters and our exchanges, the grass-hopper visitation struck our State about 150 miles wide east and west, and extend-150 miles wide east and west, and extending probably across the State from north to south. In some places they staid only four days, yet during that time they devoured nearly everything. A farmer in Cloud county, who had 800 acres of corn, says that the grasshoppers* destroyed more corn for him in 24 hours than 5,000 head of cattle could have done in the same time. The only remedy so far discovered against these pests is smoke.

OPINIONS of to-day still agree in the ments of trade. Manufacturers, except perhaps in iron, and possibly a few other interests, are slowly recovering from the depressions of the past year, and they will doubtless be restored to a healthy activity with other branches of industry. -Chicago Tribune.

Police Count .- The docket of the police court yesterday morning was larger than for some days past. Business was

disposed of as follows;
John Kelly, a workman at the Belmont Mill, was fined \$10 and costs for creating tumult and disorder. For resisting an officer, he was fined \$20 and costs and sent to jail thirty days without bail.
